# 7 reasons to upgrade to Fiery XF 7

## 1. *EFI-exclusive Fiery Accelerated System Technology (FAST RIP)*

- Now available for all Fiery XF software users
- Accelerates file processing by up to 10 times, and an average of 5 times
- Eliminates printer idle time maximising on printer investments

## 2. *EFI Fiery Command WorkStation*

- The world's most popular digital print management interface
- Renowned for its intuitive and powerful job management, layout and editing of digital print jobs
- Over ¼ of a million users already rely on its power and efficiency – this many users can't be wrong

## 3. *Manage multiple Fiery servers at a time*

- Manage multiple Fiery servers at a time with Fiery Command WorkStation, no more logging out of one server then into another

## 4. *Control mixed technology Fiery Driven™ printers*

- Control mixed technology Fiery Driven printers from a single interface whether driving wide, superwide, high-speed inkjet, or cutsheet printers, for truly unified digital print job management

## 5. *Fully flexible workflow possibilities*

- Job edits on-the-fly
- Semi-automatic job handling
- Full workflow automation
- Or a combination for maximum throughput and convenience whatever the print environment, job type, or operator preferences

## 6. *Focused user interface*

- Separate areas for job management, job editing, and server and printer administration that work in harmony to more easily focus on the task at hand
- More real estate for job previews and job settings
- Context-sensitive interface only showing tools when and where they are needed

## 7. *Business-focused features and benefits*

- Fiery Quick Stats for an overview of all production
- Free of charge Fiery Command WorkStation upgrades
- Fiery JobFlow™ ready, enabling pre-press automation
- Fiery Navigator™ ready, for business insights (*coming soon*)
