

digiscape® wide format c

Latex-saturated, Wet-strength Wallcovering Print Media

DigiScape® is a latex-saturated, non-woven wallcovering print media reinforced with synthetic fibers for strength and durability. DigiScape® is a superior alternative to PVC wall decor materials. Its environmentally responsible construction supports two LEED credits. The product is dimensionally stable and tear-resistant with a bright white surface. Available for both paste and pressure-sensitive (PSA) applications.

Available Options:

DigiScape® Smooth: Robust 9pt or 17pt material manufactured with a smooth matte print surface to reduce and improve ink adhesion.

DigiScape® Canvas: Robust 17pt material manufactured with a canvas-like texture to hide imperfections as well as to give the appearance of a true textile wallcovering.

DigiScape® II: A robust 17pt material that is laminated to a non-woven PET back. This durable construction exceeds the break and tear strength of the Type II commercial wallcovering specification.

DigiScape® Stick-R: Removable PSA with a release liner for easy peel and stick application. The product has a slight weave texture matte finish for added interest to the final print and to help cover surface imperfections.

APPLICATIONS:

Mural
Counter wraps
Wallcovering
Wall Decor

PRINTABILITY:

Eco-solvent / Solvent
Latex
UV
Offset / Screen

PRODUCT SAFETY:

PVC FREE

Contains No - IARC
Group 1 Carcinogens
Contains No - OSHA Regulated
Toxic metal or Carcinogens
Contains No - USEPA Toxic
Release Inventory Substances

Complies with European
REACH Standards.

ASTM E-84 Class A approved
(Type II)

We all know paper prints better than plastic!

It's also more widely recycled. Our paper-based portfolio provides a sustainable option, with many post-consumer options available as well.
