

Caldera

VisualRIP+

The solution for printing large-format signs & visual communication

- Unify your workflow from prepress to print & cut
- Achieve consistent colors on your printers & substrates
- Reduce job preparation & production times
- Reduce your production costs

For large-format, multi-device, medium to high-volume production environments

COLOR MANAGEMENT

Print consistent colors across your printers and substrates

- ✓ Access official spot color libraries (Pantone, RAL, HKS...)
- ✓ Calibrate your devices
- ✓ Create your own ICC profiles
- ✓ Download ready-to-use color profiles from our online library

COST OPTIMIZATION

Reduce your ink and media usage while maintaining a high print quality

- ✓ Reduce ink consumption (InkPerformer¹)
- ✓ Optimize media usage with ContourNesting
- ✓ Monitor production costs (CostProof¹)
- ✓ Save time preparing your jobs

SCALE YOUR PRODUCTION

Drive all your printers with one CalderaRIP license

- ✓ One RIP for all your devices
- ✓ Reduced training times
- ✓ Streamline your processes
- ✓ Add new RIP stations as your business grows

CUT WORKFLOW

Streamline your print-to-cut workflow

- ✓ Manage multiple contours in one file
- ✓ Generate machine-specific files for each job
- ✓ Automatically set up cut marks
- ✓ Special bleed tools for canvas and lettering

¹ CostProof and InkPerformer are optional modules for CalderaRIP. Contact us for more information.

Exclusive CalderaCare features

CalderaCare is a set of additional, exclusive features including all major upgrades, premium training content and priority access to our technical support.

InkPerformer

Activate InkPerformer to reduce ink consumption by up to 35% without compromising color accuracy. CalderaCare includes 1 InkPerformer license for one printer.

REST API

Use the REST API to facilitate the integration of CalderaRIP with third-party applications. Connect your RIP to your web shop or ERP software for a more efficient workflow, and to enable automatic job submission, job spooling and job cost tracking.

SmartImport

Automatically extract metadata from the filename (copies, printer, presets, height, width, scale) to automate job submission, save time & avoid manual errors.

PrintProof

Export TIFF proofs of your jobs after ripping and send them to your customers for validation. Avoid waste and reprints.

DISCOVER OUR BEST-SELLING OPTIONS

INKPERFORMER

Reduce ink consumption by up to 35%
No need to redo your ICC profiles to save on ink—once enabled, InkPerformer automatically calculates a new color combination to decrease the amount of ink printed on the substrate.

CUTSERVER & GRANDCUTSERVER

Streamline your print-to-cut workflow
Drive cutting devices from several brands and efficiently manage cut contours, cut marks & positioning marks to increase cutting accuracy.
