

Canson[®] Infinity PhotoGloss Premium RC 270 gsm - Gloss

The mark of
responsible forestry
FSC® C007509

Canson[®] Infinity PhotoGloss Premium Resin Coated consists of an alpha cellulose acid-free art paper coated with polyethylene and a microporous colour receiver layer. The enhanced coating finish offers a stunning gloss effect which meets the requirements our customers have always demanded.

PhotoGloss offers an exceptional Dmax as well as a wide colour gamut and is ideal to produce stunning colour photographs. It also exceeds the expectations of true professional photographic paper and has been designed to comply with the highest lifespan requirements.

Robert Rodriguez Jr

The great thing about Canson® Infinity papers is that you can don't have to make any compromises in selecting the exact paper that works best for your image. If HighGloss is too much for a particular image, then I can try PhotoGloss which usually gives me just what I'm looking for in terms of a glossy finish.
