HP Optimal Gloss Air GRP

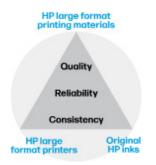

High-performance polymeric gloss adhesive vinyl with gray repositionable adhesive

The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

Produce stunning, easy-to-install prints

Experience long-lasting durability

Reduce inventory costs with the wide variety of applications that can be produced with HP Optimal Gloss Air GRP. Experience durable print performance with over 10 years laminated outdoor display permanence,¹ with HP's optimal high-performance polymeric repositionable vinyl. Use on indoor smooth floor surfaces up to 3 months,² in dry conditions when laminated with HP Gloss or Matte Polymeric Overlaminates.²

REACH compliant³

Offer a vinyl that complies with high health standards. HP Optimal Gloss Air GRP is flame-resistant and REACH compliant are gulation of the European Union adopted to improve the protection of human health and the environment. With an end-to-end approach, the HP Latex printing system continues to drive a greater sustainable impact in large-format printing.

Save time with a reliable, total HP solution

Original HP printing materials, Original HP inks, and HP large format printers are designed to work together as a system to provide reliable, consistent, quality results that help save time.

Target customers	Applications	Benefits		
Print service providers	Outdoor signage and advertising	High-performance polymeric calendered vinyl provides stunning print performance		
	Fleet graphics	Gray repositionable adhesive provides opacity to achieve the desired hiding power on multiple surfaces		
	Window graphics	Air release liner enables quick, bubble-free installation with a smooth finish		
	POP and retail displays	Save time with the repositionable adhesive for easy installation		
	Trade show and event displays	Flame-resistant ⁴ material		
	Wall murals	Over 10 years laminated outdoor display permanence ¹		
	Decals	Compatible with Original HP Latex Inks; also solvent, low-solvent, and UV-curable inks		
	Floor graphics	Designed for use on smooth indoor floor surfaces up to 3 months, ² in dry conditions when combined with HP Gloss or Matte Polymeric Overlaminates ²

Warranty	HP large format printing materials are free from defects in materials and workmanship. For warranty					
Country of origin	Product of the United States					
Environmental	REACH compliant ³					
Flame resistance	B1 approved fire certification					
Storage humidity	50% RH					
Storage temperature	21 to 24°C (69 to 75°F)					
Shelf life	Cold lamination; recommend using HP Gloss or Matte Polymeric Overlaminates 2 years, unopened in original packaging					
Operating humidity Lamination	40 to 60% RH Cold lamination: recommand using HP Close or Matta Polymoria Overlaminates					
Operating temperature	15 to 35°C (59 to 95°F)					
Service temperature	-40 to 65°C (-40 to 149°F) ¹⁰					
Minimum application temperature	15 to 26°C (59 to 78°F) on clean, dry surfaces					
Water resistance	Water resistant with HP 871 and 831 Latex Inks printed on the HP Latex 500 Printer series9					
Indoor floor durability	Recommended on indoor smooth, non-porous, sealed flat and dry surfaces for up to 3 months					
(Commercial in-window)	500 Printer series ⁸					
Display permanence	Over 5 years unlaminated, over 10 years laminated with HP 871 and 831 Latex lnks printed on the HP Latex					
Display permanence (Indoor home or office)	Over 7 years unlaminated, over 10 years laminated with HP 871 and 831 Latex Inks printed on the HP Latex 500 Printer series?					
Display permanence (Outdoor)	Over 4 years unlaminated, over 10 years laminated with HP 871 and 831 Latex Inks printed on the HP Latex 500 Printer series ⁶					
Display permanence (Outdoor unprinted)	Over 7 years ⁵ , 2 years clean removable					
Finish	Gloss,>70 gloss units at 60° reflection					
Opacity	99% per TAPPI T-425 Test Method					
Adhesive	Gray, repositionable pressure-sensitive adhesive; 2 years removable with heat					
Liner	160 g/m² double-sided PE-coated silicone paper with low-profile air release					
Base vinyl	Polymeric calendered					
Thickness (base vinyl)	76 microns/3 mil per ISO 20534 Test Method					
Ink compatability	Compatible with	Original HP Latex Inks; also solvent,	low-solvent, and UV	'-curable inks		

With HP 871 and 831 Latex Inks printed on the HP Latex 500 Printer series. Outdoor display permanence rating according to SAE J2527; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. For more information, see HPL EMedia.com/hp/printpermanence.

- ² Recommended on indoor smooth, non-porous, sealed flat and dry surfaces for up to 3 months.
- ³ See the HP REACH Declaration published at <u>HP Printing Products and Consumable Supplies</u>.
- 4 B1 approved fire certification.
- Outdoor unprinted display permanence rating based on white background color change according to SAE J2527; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. For more information, see
 HPLEMedia com/by/printpermanence
- 6 Outdoor display permanence rating according to SAE J2527; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. For more information, see HPL EMedia.com/hp/printpermanence.
- Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab and/or by Wilhelm Imaging Research, Inc. on a range of HP media. For more information, see HPLFMedia.com/hp/printpermanence.
- 8 Interior in-window display ratings by HP Image Permanence Lab on a range of HP media. HP predictions based on test data under Xenon-Arc illuminant—calculation assumes 6,000 Lux/12 hr day. For more information, see HPLEMedia.com/hp/printpermanence.
- Performance varies based on printer and print profile. Water resistance testing by HP Image Permanence Lab on a range of HP media and follows ISO 18935 method. For more information, see: HPL EMedia.com/hp/printpermanence.
- Based on internal HP testing exposure at -40°C (-40°F)/53% RH for 24 hours does not appear to have any effect on the peel strength from the substrate.
