

HP Premium Clear Window Film

The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

Optically clear window film with a permanent adhesive

See transparent window graphics with outstanding image quality

Produce attention-grabbing, long-term indoor decorative window graphics on this optically clear polyester with excellent clarity and dimensional stability. The clear graphics give the visual impression of direct printing onto the glass surface, ideal for printers with white ink capability.

Clear permanent adhesive produces optically clear graphic installs

HP Premium Clear Window Film has an ultra-clear permanent adhesive for complete transparency, ideal for graphics that include transparent elements, giving the design the appearance of being cut out. This 2-mil clear polyester release film provides adhesive smoothness and optical clarity and is REACH compliant¹—a regulation of the European Union adopted to improve the protection of human health and the environment from risks that can be posed by chemicals.

Gain efficiency and outstanding color fidelity with ICC profiles

Help save time and gain efficiency with ICC profiles to help you quickly get the exact color you need. Applications include architectural window decorations, indoor window graphics, decorative glass, interior design, and point-of-sale advertising. Designed for use with HP Latex Inks.

Target customers	Applications	Benefits
Print service providers	Indoor window graphics	Optically clear for decorative window graphics
Interior designers	Architectural window decorations/signage	Excellent color vibrancy and sharp details
	Interior design	Polyester film for exceptional clarity and dimensional stability
	Trade show and event signage	Optically clear permanent adhesive
	POS advertising	Compatible with HP Latex Inks
