

# Why buy HP Sign and Display Printing Materials?

## The HP large format printing system—the complete solution

HP Latex printers, Original HP Latex Inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

Please visit [HPLFMedia.com](https://www.hp.com/go/hplfmedia) for more information on HP large format printing materials for sign and display applications.

## Original HP inks and HP printing materials—system chemistry

Original HP inks and printing materials are designed together to provide image quality, durability, and consistency you can rely on. Reliable results enable increased productivity and reduced costs.

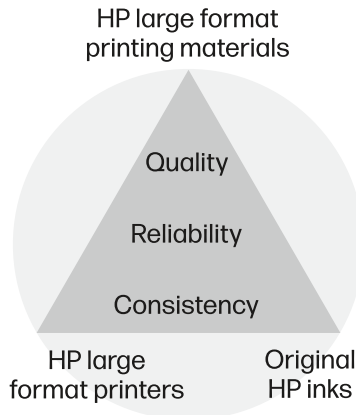

Original HP inks are more than just ink and HP large format printing materials are far more than just paper. It's the chemical makeup of each, together with the carefully engineered interaction between the two, that make exceptional results possible. Image quality and consistency so predictable, it's almost cliché. Print permanence that's measured in generations, not months or years. Breakthrough innovations that give you real alternatives to traditional materials that, by nature, must trade-off quality, durability, even environmental considerations. The unique chemistry between HP inks and HP large format printing materials changes all that—among the broad array of materials offered in the HP large format printing materials portfolio, you can have it all.

## Original HP inks and printheads

Original HP printing supplies feature intelligent technology built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. User-replaceable printheads enable easy, low-maintenance printing and can eliminate the downtime and expense of a service call.

## Designed with the environment in mind

Many HP sign and display printing materials are recyclable through commonly available recycling programs. And in some cases, HP Planet Partners program provides easy, convenient return and recycling of eligible Original HP large format ink cartridges and printheads!

FSC<sup>®</sup>-certified<sup>18</sup> papers are sourced from sustainably managed forests according to Forest Stewardship Council<sup>®</sup> standards.

Note: Not all FSC<sup>®</sup>-certified products are available in all regions.

UKCA compliant:<sup>16</sup>

HP Non-woven Durable Linen Wall Paper  
 HP Non-woven Durable Suede Wall Paper  
 HP PVC-free Wall Paper

CE mark:<sup>17</sup>

HP Non-woven Durable Linen Wall Paper  
 HP Non-woven Durable Suede Wall Paper  
 HP PVC-free Wall Paper

HP wall papers printed with HP Latex Inks are UL GREENGUARD Gold Certified.<sup>19</sup>

● Compatible only with the 60-inch (1524-mm) version of the HP DesignJet L25500 Printer series.

- Visit [hp.com/recycle](http://hp.com/recycle) to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult the Material Safety Data Sheet (MSDS) available at [hp.com/go/msds](http://hp.com/go/msds) to determine appropriate disposal.
- Purchase of a take-up reel (F0M61A) required for compatibility with the HP Latex 310 Printer.
- Compatible for single-sided printing.
- Compatible for single-sided printing in United States, Canada, and Latin America market.
- REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a regulation of the European Union adopted to improve the protection of human health and the environment from risks that can be posed by chemicals. See the HP REACH Declaration published at [hp.com/go/reach](http://hp.com/go/reach).
- Product consists of PET fabric and coatings. With liner attached, 72% by weight of the product consists of recycled content. Base material fabric is made from 100% recycled resin.
- Product consists of PET fabric and coatings. With liner attached, 69% by weight of the product consists of recycled content. Base material fabric is made from 100% recycled resin.
- Purchase of a take-up reel required for compatibility with the HP Latex 210 Printer.
- It is necessary to use the platen cover (B2W90A).
- Compatible with the HP Latex 360 Printer only.
- It is necessary to use the HP Latex 500 Series Ink Collector (T7U74A).
- It is necessary to use textile accessories for long runs of textiles and porous textiles, including the HP Latex 700/800 Textile Kit Accessory (7HR16A) and the HP Latex 700/800 Ink Collector Foams Kit (7HR18A). Separate accessories purchase required.
- It is necessary to use the HP Latex 1500 Series Ink Collector Kit (P4P92A).
- It is necessary to use the HP Latex 2700 Series Ink Collector Kit (3Y0K4A).
- To print on porous textiles, it is necessary to use the ink collector kit (CZ065A) for the HP Latex 3000 Printer series.
- UKCA complaint: Self-declared according to European Standard EN15102 and UKCA.
- CE mark: Self-declared according to European Standard EN15102.
- HP has a policy for offering Forest Stewardship Council<sup>®</sup> (FSC<sup>®</sup>)-certified papers that are sourced from FSC<sup>®</sup>-certified forests and other controlled sources. BMG trademark license code FSC<sup>®</sup>-C115319, see [fsc.org](http://fsc.org). HP trademark license code FSC<sup>®</sup>-C017543, see [fsc.org](http://fsc.org). Not all FSC<sup>®</sup>-certified products are available in all regions. For information about HP large format printing materials, please visit [HPLFMedia.com](http://HPLFMedia.com).
- HP wall papers printed with HP Latex Inks are UL GREENGUARD Gold Certified. UL GREENGUARD Gold Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit [ul.com/gg](http://ul.com/gg) or [greenguard.org](http://greenguard.org).
- Can be recycled through commonly available recycling programs.
- Product consists of PET fabric and coatings. 62% by weight of the product consists of recycled content. Base material fabric is made from 100% recycled resin.
