KODAK PROFESSIONAL

Inkjet Lustre Photo Paper DL, 255gsm

Properties	Specifications
Material	Resin-coated photo base
Gauge	10 mil / 255g
Gloss Level	>/=25
Opacity	>90%
Whiteness	>134
Environmental	FSC®-certified paper
Printer/Ink Compatibility	Compatible with Noritsu, Fuji and Epson Dry Lab printers.
Light-fastness	The fading time of inkjet ink is a direct result of the inks that you choose to use and the environment where the print is displayed. Contact the ink manufacturer for light-fastness data.
Finishing/Post Processing	It is always recommended that a protective laminate be applied after printing. Hand applying laminate is not recommended. Pressure-sensitive or thermal laminates can be used. Before applying the laminate, allow the image to dry for 24 hours.
Optimal Service Environment	72° F (21° C), 50% R.H For end use: 0-300° F
Handling Recommendations	Due to the absorptive nature of the coating, you should avoid touching the coated surface. It's always recommended that cotton gloves be used when handling inkjet coated materials.
Ideal Storage Conditions	70° F (21° C), 50% R.H. (a controlled environment is recommended); store in original packaging.
Shelf Life	1 year from the BMG ship date when stored in proper conditions.
