

Proof Line Gloss/DP

The Gloss/DP paper was designed to work with Dye and Pigmented ink sets. The 260 gsm weight makes this paper extremely Opaque and its microporous coating provides an excellent surface to hold the darkest of Black Points. The bright white color makes this paper a good choice for proofing to a #1 sheet. Background tints can also be added to match any target.

Technical Specifications:

Color:	White
White point:	L*95.39 a*-0.29 b*-3.60
Surface:	Gloss (Instant Dry)
Thickness:	10 mil
Weight:	260 gsm

The Measurements above were made using a certified X-Rite 964 Spectrophotometer. Measurements may vary with different instruments. It is always advised to use the same instrument/filter combination when measuring materials.

*No Matter How You Look at it...
 The PROOF is on the Paper.*

*Metamerism tested using DIN6172. F2 is a common fluorescent bulb used in U.S. stores and offices. **Custom ICC profiles are recommended for most proofing applications. Please contact your preferred Proof Line Dealer or Mid-States Graphics at 630-837-8571 for details or visit us on the web at www.myproofline.com. ** Mid-States takes pride in partnering with FSC Mills.
