Professional Proofing Media

Silk GS

Extra Gamut generation 2 series

Proof Line Silk GS works with Dye and Pigmented ink sets. This unique coating and high quality base provides a very smooth surface and greater color gamut than even many photo based papers. The Generation 2 type coatings were specifically designed with the onset of faster printheads running a more viscous ink. The results are immediate color stability and reduced ink usage. Silk GS is a great choice for anyone who needs to meet **ISO, SWOP** or **GRACoL** standards with their proofing system.

Technical Specifications:

Color:	White
White point:	L*95.62 a*0.00 b*-1.8
Surface:	Satin (Instant Dry)
Thickness:	7.1 mil
Weight:	200 gsm
Gloss 60˚:	22 medium gloss
Opacity:	95%
Tappi Brightness:	93.50%
Compatibility:	Dye, Pigmented, Ultrachrome
*Metamerism:	0.57Δe Low Index
	D50/2 compared to F2/2
ICC Profiles:	**Available
